

LEADERSHIP
FOR MIDWESTERN
WATERSHEDS

**Invest in the Future of
Water Quality Improvement
by Becoming a Sponsor**

**Join Sand County Foundation as we host the 14th
Leadership for Midwestern Watersheds conference
November 3-4, 2022 in Fort Wayne, Indiana.**

Leadership for Midwestern Watersheds is an impactful forum for conservation professionals who are leading the way to reduce agricultural runoff in watersheds of the central United States. The annual meeting series provides needed training, networking and information sharing not readily available elsewhere.

Leadership for Midwestern Watersheds features an in-person annual conference and online convenings offering presentations and facilitated discussions on subjects essential to successful watershed projects including farmer engagement, planning tools, project financing, and water quality outcome measurement.

The Wisconsin River at Prairie du Chien

As a sponsor, you'll engage with leaders of projects designed to improve the health of agricultural watersheds throughout the Midwest.
